

ANNEXURE - Creating room for Wealth Transfer

For a very long time, The Body of Christ has received countless prophecies on the coming wealth transfer from the wicked to the righteous. God is ready to make the transfer, but He will not pour out new wine into old wine skins. He will not transfer wealth into a Babylonian system and Babylonian institutions. He will not allow Babylonian patriots, scholars and managers to administer this wealth transfer, neither will He allow Babylonian policies to govern the administration of this wealth. Therefore, God is making a demand to the righteous, 'MAKE ROOM FOR US'!

How do we make room?

Genesis 24: 23 - And said, whose daughter art thou? tell me, I pray thee: Is there room in thy father's house for us to lodge in?

The Word of God in this chapter tells us that Abraham was blessed in all things, he sent Eliezer to search for a bride for Isaac. Eliezer found the bride that exceptionally passed the test, but a question had to be posed to her before she could be married into the Abrahamic blessing. Is there room for us in thy father's house for us to lodge in?

God is changing the control of money, He is moving it from the hands of the wicked into the hands of The bride of Jesus Christ. The question He is asking is, is there room for Them (Father; Son; and Holy Spirit) to make the transfer into, because the current banking policy framework and economic system was a failure from its inception, as it is not His system. A room needs to be created by returning to the former ways of generating and governing the flow of wealth in economies.

God is bringing forth a new era into our generation, the control and the administration of the flow of money. There is a shift in authority over money and wealth. Those who have previously enjoyed the authority to govern over money and wealth will be quickly phased out due to their unfaithfulness. They have expanded Babylon and made unrighteousness and injustice to be the economic order of nations and many generations. God is creating a new wine skin, a new banking system, with a policy framework derived from His Word. He is replacing man's ways with His ordinances, statutes and commands. Old wine skins cannot be patched; therefore, we cannot marry the Babylonian system with God's system. A new banking policy framework and new banking institutions must be speedily established using The Laws of God because He takes away the old, that He may establish the new. It is Banking God's way!

The Kingdom Policy Institute Banking Indaba 2018 is a gathering of new wine skins who are responding to God's question as Rebekah responded in verse 25: 'Moreover unto him, We have both straw and provender enough, and room to lodge in'. It is a platform to create room for the wealth transfer by unearthing, sharing and consolidating what The Lord has been downloading to various persons over a long time, in order to emerge with the first draft of a Discussion Paper on Banking God's Way, which will speedily be refined into a Policy Document. It is this Policy Document on Banking God's Way that will be used to lobby various stakeholders, such as the

Banking Regulator, Business Community and the Banked Communities to make room for Godly banking institutions to be established using biblical principles.

The dangers of not creating room at the opportune time is that God will bring forth what He is determined to bring forth and He will bring it forth in a manger, if there is not room in the inn for Him. Room must be created and created quickly because time is of the essence. The days are numbered, Babylon's fall is near, there cannot be a vacuum. God is birthing a new banking system, new banking institutions, to administer global economies. He is taking away the former and bringing the new. A room must be created speedily.
